

Hi,

In connection with our mandatory vaccination policy, all members who are participating this year will be required to send us their vaccination documents for proof of vaccination.

All vaccination documents should be sent to sahldocuments@gmail.com **by end of day September 17, 2021**. Registration with the league is required prior to sending in your documents therefore registration is due on the same day to ensure you are drafted to a team.

Your privacy is important to us and as such the following system will be in place:

- Only 3 members of the Board of Directors will have access to the email account noted above;
- Once records are verified by one of the three members they will be deleted from the email account;
- Division reps in charge of the draft will only be provided with a list showing members names available to be drafted. No other information will be provided.

Please email the same account if you have any questions.
